G | SPEED® eS PRO

High-Performance, Fail-Safe RAID Solutions for HD/2K Production

G-SPEED® eS PRO provides professional content creators better than Fibre-Channel performance for demanding post production applications. G-SPEED eS PRO features mini-SAS connectivity for very high performance operation.

When used with an ATTO R680 PCIe RAID controller, a single G-SPEED eS PRO enclosure with four hot-swappable Enterprise-class 7200RPM SATA drives supports real-time playback of 10-bit uncompressed 1080/60i with over 400Mb/sec performance. Two G-SPEED eS PRO units in protected mode (RAID 5) achieve close to 1000MB/sec performance and support two simultaneous streams of uncompressed 10-bit HD or a single 2K DPX sequence. G-SPEED eS PRO is simply the most cost-effective desktop RAID storage solution designed specifically for high-end post.

KEY FEATURES

- High-speed, low-cost RAID designed specifically for professional content creation applications
- Two 16TB G-SPEED® eS PRO units reach over 1000MB/sec performance!
- Supports multi-stream SD, ProRes 422, uncompressed HD & 2K DPX workflows when used with ATTO R680
- Four hot-swappable Enterprise-class 7200RPM, 3.5" 3Gbit SATA drives each with up to 64MB cache
- Storage capacities up to 16TB per unit — scalable to 32TB*
- Unique industrial design, compact all aluminum enclosure
- Mac OS® and Windows® compatible
- 3-Year limited warranty

*G-SPEED eS PRO is not supported by Windows XP or older 32-bit operating systems which limit maximum volume size to 2.2TB.

One GB is equal to one billion bytes and one TB equals 1,000 GB (one trillion bytes) when referring to hard drive capacity. Accessible capacity will vary from the stated capacity due to formatting and partitioning of the hard drive, the computer's operating system, and other factors.
