

IMPORTANT INFORMATION

Country Restrictions for WD Branded Products

IMPORTANT: This product has not yet been announced. Please exercise discretion in the distribution of this information and ensure that the recipients are compliant with WD disclosure procedures.

Dear Valued WD® Customer:

WD products have varying regional regulation requirements for shipping products with power, networking, and storage into specific countries. We are subject to legal constraints for shipping WD products into specific countries until such certifications have been received. As a result, WD must implement country-specific launch plans, rather than regional-based launch plans, to comply with certification and labeling requirements to display the required approvals.

Description of Changes

The purpose of this PCN is to communicate to WD customers the countries where WD has authorization to sell the following WD products:

- WD Arkeia DA1300
- WD Arkeia DA2300
- WD Sentinel DS4000
- WD Sentinel RX4100
- WD Sentinel DS6100/DS5100

Effective:

This restriction on the shipment of the above named products into specific countries is effective immediately. Failure to adhere to these restrictions may result in fines and penalties on the importer or reseller for which WD assumes no liability. This list gets updated as WD adds country certifications, so please check it regularly. For the latest list of regulated countries for this and other products, visit:

<http://www.wdc.com/regulatedcountries>

If you have any questions, contact your local WD Account Representative.
