REACH Certificate of Compliance

Western Digital

Western Digital Products
March 18, 2020

Western Digital products are in compliance with European Union Regulation 1907/2006 on the Registration Evaluation Authorization and Restriction of Chemicals (REACH).

Based on information provided by our suppliers, Western Digital designates the products listed in this certificate as REACH compliant for orders based on or after the date of this certification. REACH compliant means that:

- Our products are not intended to release substances during normal and reasonably foreseeable conditions of use.
- Regarding the Substances of Very High Concern (SVHC) updated candidate list recently released by the European Chemicals Agency on July 16, 2019.
- Western Digital provides customers with information on Substances of Very High Concern (SVHC) contained in products in concentration above 0.1% by weight in a component within the product.

Substance Name	CAS Number	Component
Lead	7439-92-1	Is contained in High Temperature Solders of IC and Diodes
4,4'-isopropylidenediphenol (BPA)	80-05-7	Is majorly contained in Die Attach of DRAMs

- We will continue to monitor the status of the candidate list as part of our on-going compliance activities, including the possible need under Article 33 of REACH to inform product recipients and consumers if an article contains more than 0.1% by weight per article of any substance that is added to the SVHC candidate list in the future.
